Dear Prospective Member,

Enclosed you will find a membership application packet that we hope you will take the time to read and complete. Being a Full Member of I-ACT ranks you with the top colon hydrotherapists nationally and internationally. Along with the incredible support and networking, your membership entitles you to many benefits including discounts on seminars, conventions, and educational training.

Another privilege is having access to the information we make available. This collection of valuable information is a source of motivation, support and ongoing study. This material is available only to Full I-ACT Members.

I sincerely hope you will consider being a part of I-ACT. We need people with your interest and enthusiasm. We are looking forward to welcoming you into our organization.

Health & Harmony,

Beverley Blass

I-ACT President

COLON HYDROTHERAPY FACT SHEET

What is Colon Hydrotherapy?

Colon hydrotherapy, is a safe, effective method of removing waste from the large intestine. By introducing a small amount of water into the colon, the waste is softened and loosened, resulting in evacuation through natural peristalsis. This process is repeated a few times during a session. Colon hydrotherapy best benefits the body when used in combination with adequate nutrient and fluid intake as well as exercise. Today's sophisticated technology makes this health practice both safe and sanitary.

Sanitation

Modern colon hydrotherapy equipment should be manufactured through compliance with strict FDA guidelines that dictate rigorous accountability. The FDA-registered equipment features temperature controlled water mixing and back flow prevention valves, pressure and temperature sensors, and a built-in chemical sanitizing unit or water purification unit. Disposable single-use rectal tubes, rectal nozzles, and/or speculums are highly recommended. The equipment should be plumbed to meet all local ordinances.

I-ACT's Work to Ensure Professional Standards

The International Association for Colon Hydrotherapy (I-ACT) advocates the highest standards of education and professional conduct to assure properly administered colon hydrotherapy. Today, colon hydrotherapists are thoroughly trained professionals, who must pass rigorous testing and adhere to strict guidelines established by I-ACT. These professionals are well schooled in the administering of colon hydrotherapy.

Colon Hydrotherapy Client & Hydrotherapist Population

There are an estimated 5,000 colon hydrotherapists in the United States. Hundreds of thousands of clients enjoy the therapeutic value of colon hydrotherapy. There are many medical, chiropractic, acupuncture and naturopathic doctors who prescribe colon hydrotherapy as an adjunct to treatment, and some insurance policies cover it.

Glossary

Colon hydrotherapy
Equipment
Client

Table
Speculum

Instrument
Session
Rectal Nozzle
Obturator

COLON HYDROTHERAPY:

1. Hydrates the waste and the body. (hydrated bodily fluids are able to carry nutrients and waste more effectively, these fluids include lymph, blood, mucus, intercellular fluid and extra cellular fluid)
2. Softens and loosens waste. (it is easier for the bowel to evacuate softened, hydrated waste than a hard, dehydrated mass)
3. Water enters the bowel, softening and loosing waste, this creates the reflex for evacuation. The colon evacuates through normal peristalsis. This may be repeated several times during a session, thereby exercising the muscles which make up the colon.

COLON HYDROTHERAPIST:

A person who has been trained to assist during the colon hydrotherapy session.

EQUIPMENT, INSTRUMENT, DEVICE

Colon hydrotherapy equipment does not have a motor nor a generator. It does not generate force, it controls force. Please do not call colon hydrotherapy equipment a machine, use the term equipment, instrument, or device.

SESSION

Colon hydrotherapy is a service not a treatment. Colon hydrotherapists are not medical providers unless they have completed their education in one of the medical fields.

CLIENT

Colon hydrotherapy clients are not patients. They are receiving a specific service, for reasons of their own. If they require a medical provider, help them by knowing who in your area provides good quality medical help and refer them to that person.

TABLE

The cushioned surface upon which a client of colon hydrotherapy rests is called a table.

RECTAL TUBE OR RECTAL NOZZLE

The small hollow tube which is inserted into the rectum approximately 3 inches and allows water to flow into the rectum and colon. This small tube remains in place during the evacuation of waste.

SPECULUM

A rigid tube about five and a half inches long, a little less than three quarters of an inch in diameter, which enters approximately two and a half to three inches into the anal canal. A quarter inch water tube attaches to the side of the speculum that is away from the body, with a one inch waste tube attached on the far end.

OBTURATOR

The obturator is a stick with a smooth, half sphere on one end and a small handle on the other end. It is placed within the speculum to allow the speculum to enter the anal canal without disturbing the tissue.

OTHER NOTES

Please don't put the initials for colon hydrotherapist after your name, write it out in full. According to state law in most states, initials after your name is not allowed unless you have a degree from an accredited professional school. For certification, education is a must for a colon hydrotherapist. To complete Foundation Level Certification (Level 1) through I-ACT, the colon hydrotherapist must complete the 100 hours of training, and all requirements detailed in this packet and the Foundation Level Syllabi.

I-ACT Policy Statements

1/1/2018

I-ACT requires the use of currently registered FDA equipment and only disposable speculums, rectal tubes, or rectal nozzles. However, should the Therapist use reusable speculums, these speculums should, at a minimum, be autoclaved for sanitation and cleanliness (30 minutes). Additionally, the autoclave unit must be tested and inspected by competent authority at least four times per year- maintain documentation. (Under NO conditions should a disposable speculum or rectal tube be reused). Individuals that use reusable speculums and/or are not using FDA registered devices will be removed from I-ACT membership on 12/31/2018.

I-ACT recognizes the FDA classifies equipment used to instill water into the colon through a nozzle inserted into the rectum to evacuate the contents of the colon into three distinct classes; Class I (Enema Kits), Class II and Class III are (Colon Irrigation Systems). Follow the guidelines of your manufacturer, as approved by the FDA for the type of equipment (devices) you are using. Make no claims as to the use of your device other than those approved by the FDA.

The main differences between Class I and Class II devices:

The code of federal regulations CFR 876.5210 & 876.5220 describe the differences between the Class I and the Class II devices. From that regulation, a Class I device is an enema system and does not include “colonic irrigation devices”. A “colon irrigation device” is a Class II device, which in part is described as: “The system is designed to allow evacuation of the contents of the colon during the administration of the colonic irrigation.

The Class I Device:

- The Class I device is defined as an enema system and may not have temperature control, temperature gauges or water purification as part of the device. Class I enema systems must be self-administered.
- Manufacturers of Class I devices are not required to have third party oversight as they need not comply with the good manufacturing practices and record keeping that are required of Class II manufacturers. Class I devices are not as heavily regulated and controlled by the FDA as Class II devices are.
- Owners of Class I devices may not market their service using the terms “colonics or colonic irrigation” in describing the scope of their practice of evacuating the contents of the lower bowel.

The Class II Device:

- The Class II Device is a “colonic irrigation device”.
- Manufacturers of Class II devices are required to have third party oversight and must comply with the good manufacturing practices and record keeping that are required by the FDA. Class II devices are heavily regulated and controlled by the FDA.
- The FDA requires Class II devices to be sold and used on or at the order of a physician or health care practitioner. This may be different in each state.

Although I-ACT is not aware of any laws that preclude you from assisting an individual with an enema, I-ACT does want you to consider upgrading your equipment to the equipment that provides the greatest safeguards to the public. In this profession, that would be equipment marketed as Class II devices.

Remember that I-ACT strongly recommends that all I-ACT members use FDA registered Class II devices or devices equivalent to Class II devices regulated by the appropriate agency in your country. Only individuals using FDA registered equipment will be placed on the I-ACT Web Site. As of 12/31/2018, only individuals that use FDA registered devices may be I-ACT members. Purchase equipment at your own risk. Ensure you are in compliance with your local, state, federal and country guidelines. Ensure that equipment you purchase is cleared for use in your country.

I-ACT recognizes there are two distinct types of colon irrigation systems; open and closed systems. However, it is I-ACT policy that the colon hydrotherapist / technician is always in attendance / or is immediately available to the client throughout the session. The degree of assistance is to be in compliance with the instructions of the manufacturer of the equipment as registered with the FDA, and/or as directed by a physician.

The I-ACT policy on insertion is to require the client to insert the rectal tube or speculum; or, follow the instruction of the referring physician; the guidelines of the manufacturer as approved by the FDA; or the directives from the authority of your city, county, state, or country ordinances.

I-ACT recommends that you do not put the initials (CT) for colon hydrotherapist after your name, write it out in full. According to most state laws, putting initials after your name is not allowed unless you are licensed or have a degree from an accredited professional school.

Advertising copy which states or implies that colon hydrotherapy can treat any disease, promise cure for any disease, or that makes unsubstantiated medical claims SHALL NOT be used.

How to be Certified by I-ACT
New Requirements as of 1/1/2018
Exams and their requirements

Also review the guidelines on the website at <http://www.i-act.org/foundationlevel.html>

The Foundation Level

Prerequisites for Entry into Training and for Certification for the 100 Hour Course

1. Any individual not using FDA registered devices may not be an I-ACT Member and no I-ACT school / instructor may train any individual that does not use FDA registered devices.
2. Each student **MUST** have a High School Diploma or equivalent requirement showing they have achieved High School Standards. This may be documented by Diploma, GED or equivalency exam such as the Wunderlich Ability to Benefit Test or College transcript/degree.
 - This must be completed prior to entering into training. (The Instructor/School must document completion of this requirement on the official I-ACT transcript.)
3. I-ACT recommends that each new student receive 1-3 colonics prior to entering training.
 - This recommendation can be waived if the student has contraindications to receiving colonics.
4. Each student **MUST** show proof that they have taken a CPR Class and have a current CPR card.
 - This **MUST** be completed prior to certification; however, It is strongly recommended this be accomplished before entering training.
 - The Instructor/School must document completion of this requirement on the official I-ACT transcript.
5. Each student **MUST** have completed a post Secondary (or higher) Anatomy & Physiology (A&P) Course (verified by school transcript) of at least 3 Credit Hours (30 class room hours) from a licensed institution or from an institution or course on the I-ACT recognized list posted on the I-ACT website (www.i-act.org).
 - This **MUST** be completed prior to certification; however, It is strongly recommended this be accomplished before entering training.
 - The Instructor/School must document completion of this requirement on the official I-ACT transcript.
6. Each student **MUST** be an I-ACT full member prior to taking any I-ACT exam. The school or instructor can collect the application - with payment - and hold this until the scheduled training is completed to submit with the entire package. The student must pay the application fee and the test fee prior to taking the exam. If a student departs the class and does not complete training, the instructor / school must document, on the transcript, the portion of training that was completed and send that (along with the membership application and fee) to the office within 14 days of the student's departure from training (last day of attendance).

Prerequisites for Entry into Training and for Certification for the 16 Hour Course

1. Proof the individual has been in the profession of Colon Hydrotherapy for more than one year.
The verification of the prerequisites and the approval to take the 16-hour course must come from the I-ACT Office prior to allowing the student to start the 16-hour course.
 - Documentation must be verifiable in a court of law and may include:
 - W-2, 1099 or W-9 - showing one year's experience as a Colon Hydrotherapist.
 - sales receipt for the purchase of a Colon Hydrotherapy device or Colon Hydrotherapy supplies
 - Certificate of training (with date and signature)
 - *** Statement by employer is not acceptable***
2. Document 100 colon hydrotherapy sessions in the preceding year.
 - Must be by log or daily schedule.
3. Each student **MUST** have a High School Diploma or equivalent requirement showing they have achieved High School Standards. This may be documented by Diploma, GED or equivalency exam such as the Wunderlich Ability to Benefit Test or College transcript/degree.
 - This must be completed prior to entering into training.
4. Show proof that they have completed a CPR class and a current CPR card.
 - This must be completed prior to entering into training.
5. - Each student **MUST** have completed a post-secondary (or higher) Anatomy and Physiology (A&P) Course of at least 3 credit hours (30 - 45 class room hours) from a licensed institution or from an institution or course on the I-ACT recognized list posted on the I-ACT website (www.i-act.org).
 - This must be completed prior to entering into training.
6. The instructor / school must document completion of all prerequisites on the official I-ACT transcript.

The Intermediate Level

Prerequisites

1. Must have a high school diploma/GED, or equivalent
2. Must have postsecondary education level A&P (equivalent to 3 semester hours)
3. Must have a current CPR card
4. Recommendation - each new student should have received 1 - 3 colonics prior to entering training
5. Individual may not enter training for the Intermediate Level (Level 2) until they have been fully certified by I-ACT at the Foundation Level (Level 1) for a minimum of 1 year/ This is the date on the I-ACT Foundation Level Certificate.
 - Only exceptions are Licensed Health Care Providers (MD, DO, PA, RN, LAc, ND, Massage Therapists Licensed by the State Board of Medicine/Health, Etc.) - does not mean Estheticians, Reiki masters, etc.
6. Each student must attend a mandatory webinar on I-ACT Standard Office Procedures - put on by the I-ACT office before starting the classroom course.

Requirements:

1. 50-hours of training, 26 hours may be by webinar put on by the School / Instructor and 24 hours (3 days minimum including practicum) must be in the actual "brick and mortar" classroom of an active I-ACT instructor / school.
2. Must pay for, take and pass the I-ACT Intermediate Level 2 Exam, and complete the 30 minute presentation.
 - The Level 2 exam may only be offered after the 50-hour course is completed.

The Advanced Level

Prerequisites

1. Must have a high school diploma/GED, or equivalent
2. Must have postsecondary education level A&P (equivalent to 3 semester hours)
3. Must have a current CPR card

How to be Certified by I-ACT - Continued

New Requirements as of 1/1/2018

Exams and their requirements

Also review the guidelines on the website at <http://www.i-act.org/foundationlevel.html>

4. Recommendation - each new student should have received 1 - 3 colonics prior to entering training
5. Individual may not enter training for the Advanced Level (Level 3) until they have been fully certified by I-ACT at the Intermediate Level (Level 2) for a minimum of 1 year/ This is the date on the I-ACT Intermediate Level Certificate.
 - Only exceptions are Licensed Health Care Providers (MD, DO, PA, RN, LAc, ND, Massage Therapists Licensed by the State Board of Medicine/Health, Etc.) - does not mean Estheticians, Reiki masters, etc.
6. Each student must attend a mandatory webinar on I-ACT Standard Office Procedures - put on by the I-ACT office before starting the classroom course.

Requirements:

1. 50-hours of training, 26 hours may be by webinar put on by the School / Instructor and 24 hours (3 days minimum including practicum) must be in the actual "brick and mortar" classroom of an active I-ACT instructor / school.
2. Must pay for, take and pass the I-ACT Advanced Level 3. Exam.
 - The Level 3 exam may only be offered after the 50-hour course is completed.

The Instructor Level

Prerequisites

1. Must have a high school diploma/GED, or equivalent
2. Must have postsecondary education level A&P (equivalent to 3 semester hours)
3. Must have a current CPR card
4. Recommendation - each new student should have received 1 - 3 colonics prior to entering training
5. Individual may not enter training for the Instructor Level (Level 4) until they have been fully certified by I-ACT at the Advanced Level (Level 3) for a minimum of 1 year/ This is the date on the I-ACT Advanced Level Certificate.
 - Only exceptions are Licensed Health Care Providers (MD, DO, PA, RN, LAc, ND, Massage Therapists Licensed by the State Board of Medicine/Health, Etc.) - does not mean Estheticians, Reiki masters, etc.
- Request for Waiver Option to the one year between certification at Level 3 and starting the Instructor Level - An individual that has previous experience training adult learners may apply for a waiver to the one-year time frame. The waiver must be in writing through the Senior Education Committee. Criteria for approval might include:
 - an individual who has had college level coursework in education.
 - an individual who has been trained as an instructor in the military.
 - an individual who is a state certified instructor (ie. massage instructor, etc).
 - Individuals who are "company" approved instructors are not eligible for the waiver.

6. Each instructor must be NBCHT Credentialed before Instructor certification will be offered (optional for International Instructors).
7. All individuals MUST take this instructor course BEFORE presenting their one hour presentation at the Convention. The Course must be completed and their power point Presentation sent to the I-ACT office no later than April 30 of the year of the desired exam at the convention. No later than May 15, the student will submit (to the I-ACT office) their 50 question exam (with answers and source documents), their class handouts, A&P review exam, evaluation forms, lesson plans (three minimum), textbooks, references, etc., (or provide via Kindle or I-Pad). Additionally, by May 15, the student will submit (to the I-ACT office), their enrollment application, enrollment agreement, class schedule of 100 hours, and the certificate of training completion that they will be using in their class.(see attachments for samples of these documents). Individuals that do not submit all requirements to the I-ACT office by May 15, will not be allowed to present their final hour presentation at the convention until the following year.

Each Instructor candidate must attend an Instructor training class put on by an I-ACT Instructors or an I-ACT School

Requirements:

1. Each instructor must be NBCHT Credentialed before Instructor certification will be offered (optional for International Instructors).
2. All individuals MUST take the 60 Hour instructor course BEFORE presenting their one hour presentation at the Convention. The Course must be completed and their power point Presentation sent to the I-ACT office no later than April 30 of the year of the desired exam at the convention. No later than May 15, the student will submit (to the I-ACT office) their 50 question exam (with answers and source documents), their class handouts, A&P review exam, evaluation forms, lesson plans (three minimum), textbooks, references, etc., (or provide via Kindle or I-Pad). Additionally, by May 15, the student will submit (to the I-ACT office), their enrollment application, enrollment agreement, class schedule of 100 hours, and the certificate of training completion that they will be using in their class.(see attachments for samples of these documents). Individuals that do not submit all requirements to the I-ACT office by May 15, will not be allowed to present their final hour presentation at the convention until the following year.
3. Must demonstrate one hour of teaching at an I-ACT Convention - eight people in attendance desired.

ATTENTION - ALL Individuals seeking to achieve the Instructor status at the next Convention MUST be registered for the Convention and MUST have checked the Instructor block BEFORE April 30, of that year.
Any individual that does not meet the April 30 cutoff, MUST then register for the next annual Convention.

Testing Policy:

1. Members will be allowed to take a test 2 times without additional test fees. If the member fails the exam 2 times they will be required to show additional training before they can retest. They may retest and pay \$75 for the test. If they fail this test, they will be required to wait 6 months and show they have had additional training before they can retest and pay an additional \$75 test fee. If the person does not pass this exam they will be required to retrain with A & P at a school, instructor or tutor and present a transcript.
2. Maximum time allowed for Level 1 & 2 exam shall be 2 hours, and maximum time allowed for Level 3 exam shall be 3 hours. This time may be extended by the proctor as required for International students that English is not their first language or if the student has documented learning disabilities.

INTERNATIONAL ASSOCIATION FOR COLON HYDROTHERAPY APPLICATION

(- Please Print only -)

Which of the following classifications of membership correspond to your situation?

Affiliate Member (groups, organizations, or companies)

\$250 per year -- Groups, organizations, or companies who want to support the growth of colon hydrotherapy and the goals of this Association are invited to become Affiliate Members of I-ACT. Affiliate Members subscribe to I-ACT's ethical and professional guidelines, receive a newsletter subscription and can designate a representative to serve on committees. Affiliate Members are not eligible to vote and are not eligible to serve as an officer or a member of the Board of Directors.

Full Member (Professional colon hydrotherapist) How did you hear about I-ACT _____
\$150 - {International Members pay \$125 – U.S. funds}

(Please provide a passport size picture) -- Professional colon hydrotherapists are welcome to join I-ACT as Full Members. A Full Member has one vote, receives a newsletter subscription and is eligible to serve as an officer, member of the Board of Directors, or on committees. Dues are required annually. Membership will lapse if dues are not paid in a timely manner.

Donating Member (clients, health care practitioners, family, friends)
\$35 or \$_____ or _____ Goods and Services (please specify)

Individuals who want to support the growth of colon hydrotherapy and the goals of this Association are encouraged to join I-ACT as Donating Members. A Donating Member receives a newsletter subscription, can serve on committees or advisory boards, but is not eligible to vote or serve as an Officer or member of the Board of Directors.

Patron Member (clients, health care practitioners, family, friends)
\$75 or \$_____ or _____ Goods and Services (please specify)

Individuals who want to support the growth of colon hydrotherapy and the goals of this Association are encouraged to join I-ACT as Patron Members. A Patron Member receives a newsletter subscription, other communications from the office and other Patron Member benefits. He/she can serve on committees or advisory boards, but is not eligible to vote or serve as an Officer or member of the Board of Directors.

When did you begin working as a colon hydrotherapist? _____

How many clients per week do you currently see? _____ What type of equipment do you use? _____

What complementary modalities do you use? (e.g., massage, iridology)? _____

Please describe your education and training in colon hydrotherapy: _____

I-ACT Policy Statements

I-ACT requires the use of currently registered FDA equipment and only disposable speculums, rectal tubes, or rectal nozzles. However, should the Therapist use reusable speculums, these speculums should, at a minimum, be autoclaved for sanitation and cleanliness (30 minutes). Additionally, the autoclave unit must be tested and inspected by competent authority at least four times per year- maintain documentation. (Under NO conditions should a disposable speculum or rectal tube be reused). Individuals that use reusable speculums and/or are not using FDA registered devices will be removed from I-ACT membership on 12/31/2018.

I-ACT recognizes the FDA classifies equipment used to instill water into the colon through a nozzle inserted into the rectum to evacuate the contents of the colon into three distinct classes; Class I (Enema Kits), Class II and Class III are (Colon Irrigation Systems). Follow the guidelines of your manufacturer, as approved by the FDA for the type of equipment (devices) you are using. Make no claims as to the use of your device other than those approved by the FDA.

I-ACT recognizes there are two distinct types of colon irrigation systems; open and closed systems. However, it is I-ACT policy that the colon hydrotherapist / technician is always in attendance / or is immediately available to the client throughout the session. The degree of assistance is to be in compliance with the instructions of the manufacturer of the equipment as registered with the FDA, and/or as directed by a physician.

The I-ACT policy on insertion is to require the client to insert the rectal tube or speculum; or, follow the instruction of the referring physician; the guidelines of the manufacturer as approved by the FDA; or the directives from the authority of your city, county, state, or country ordinances.

I-ACT recommends that you do not put the initials (CT) for colon hydrotherapist after your name, write it out in full. According to most state laws, putting initials after your name is not allowed unless you are licensed or have a degree from an accredited professional school.

Advertising copy which states or implies that colon hydrotherapy can treat any disease, promise cure for any disease, or that makes unsubstantiated medical claims SHALL NOT be used.

I acknowledge the I-ACT policies and agree to comply with all I-ACT policies. I understand that failure to comply with the policies listed above may result in my removal from the association.

Signature of Applicant *** required for all applications***

Date of Application

STOP!!! All applications to I-ACT MUST include a photograph for our file... by signing this application, the applicant certifies that they have read the I-ACT By-Laws and Standard Operating Procedures, Regulations and Guidelines and the statements below, and will comply with the information contained in them.

Information for all new members outside of Texas:

“Colon irrigation devices are prescription devices and their purchase must be authorized by a practitioner licensed by state law to use such devices in that state. A colon hydrotherapist must be supervised by such a practitioner to use a colon irrigation device and must have a written order on file for each procedure from a practitioner licensed by state law in the state where the procedure is to be performed.”

Information for all new members inside of Texas:

“Colon irrigation devices are prescription devices and their purchase must be authorized by a physician licensed by the Texas Board of Medical Examiners. A colon hydrotherapist must be supervised by such a physician to use a colon irrigation device and must have a written order on file for each procedure from a physician licensed by the Texas Board of Medical Examiners.”
